FACTS FOR MEN OF ALL AGES. DISEASES OF MEN.

M. V. LUBON'S SPECIFIC No. 8 CURES The terrible consequences of Indiscretion, Exposure and Overwork.

Who are broken down from the eilects of abuse will find No. 8 a radical cure for nervous debility, organic weakness, involuntary vital losses, etc.

Symptoms for which No. 8 should be used:

Want of energy, vertigo, want of purpose, dimness of sight, aversion to society, want of confidence, avoidance of conversation, desire for solitude, listlessness and inability to fix the attention on a particular subject, cowardice, depr scion of spirits, gliddiness, loss of memory, excitability of temper, SPERMATORRHOA, or loss of the seminal fluid—the result of SELP-ABUSE, or marital excess—impotency, innutrition, emaciation, barrenness, palpitation of heart, hysteric feelings in females, trembling, nelsencholy, DISTERBISC DIREAMS, etc., are all symptoms of this TRRHIBE HABIT, oftentimes in we entry acquired, in short, the spring or vital force having lost its tension, every function wanes in consequence. Scientific waters and the superintendents of insane asylums unite in ascribing to the elects of self-abuse the great majority of wasted lives which come under their notice. If you are incompetent for the arduous duties of business, incapaciated for the enjoyments of life, No 8 offers an escape from the effects of early vice. If you are broken down, physically and mentally, from early indiscretions, the r-suit of guorance and folly, send your address for Lubon's Treatise, entitled "CHRONIQUE SCANDALEUSE," on account of follies and vices. This book will be sent sealed and secure from observation upon receipt of two 3c. stamps.

THE WHEAT QUESTION.

THE WHEAT CUESTION.

It is well that the gramblers in Manitoba, who are charging the C. P. R. with all the ills that beful the country, and are accusing it of charging extorionate freight rates, should fully examine the fact that the grading of wheat is fully four per cent, lower in Duluth than it is at Port Arthur, which at present prices amounts to about two cents per beside. Under the circumstances Manitoba farmers examot get justice until the ruling of Canadian markets by Duluth quotations is completely abbilished. There must be some steps taken internationally to have this business canaged, if the Americans can or will do nothing, then the Canadian Government must take steps to have the grading reduced in Canada through the boards of trade.

Another step the Canadian Government must take is the abolition of the regulation that allows American wheat to be imported in bond for grinding for immediate export to Govern Instant, it is not justice to this country, in that it prevents the mills from being employed on Manitoba wheat as they observative shall be; but the formality (f) amounts to what its considerably worse—a naceus in porting without at all times paying the legal states, and therefore, displacing Manitoba from its proper position in the Canadian markets.

and to sopply the eastern previnces no matter-tion short their crop may be, with all the wheat they can possibly grind, and giver will be no necessity for resorting to any of the subteringes actually employed in the term, grinding in bond. If the farmers of Manitoba would only aginate this question inward of the bring of themselves head and ears in delet or a Red Raser railway, they would have something practicable, and that would rasen money in their pockets from the start.

The result of the trial of the Henrys for shooting the Indian at Rapid City, ought to teach some of our white people a lesson. We are, we take it, compelled to admit justice was done in the premises, as the case went through the data! proceedings in the courts, but as we have said, the history of the business ought to teach Northwest pale faces a wholesome lesson. Though the defendants in, the case killed the Indian and were acquitted in a charge of manufaughter, it is none the less a truth the Indians of Manitoha at least, are a careful, in offensive people, and if they were considered eccordingly, there would be none of these mealents in the courts. Visit their teepees where you will, and it will be observed they are most careful of prairie fires—indeed much more so than are the white settlers of the country. Treacherous they may be in a certain definition of the term, but it is only where they have, from their light, the best reason for believing they have been ill-used, and have no other means of getting justice. They do not understand the laws and regulations of veicil lization," they do not know they are based on paneighes to give even chould juste to all when the central and the provincial seven the close of the leads of the leads

proximes without a such a dispersion of the same in the same in the political plexion may be satisfied by affer the social governments a fase that where the position is said of the social governments as fase that where the position is said the social governments as fase that where the same one way or arother much plexion may be satisfied to the position of the social governments as fase that where the same of the social governments as fase that where the same of the sam

work, it believed fully within its own jurisduction, coul be induced by the moral snashion of the Federal such was not the case, who have leave as a serts there is machinery within each province for the preparing of provincial rovers' lists, and that this machinery should prepare the Federal lists as a cliff his means there is machinery within each province for the preparing to some form the several rovinces about the order lists as a cliff his means that the representative at Citawa, while presu in to have equal influence a dauthority in the House, would not have such vested in them as they would be from the several rovinces elected on lists of varing property qualifications, while the spirit of the age is to have the nelected from the same. The rule might nuch be tere be operated in creatly, and have the provincial representatives elected from the Federal lists. he saving the deletat shows a sold as the other, but the saving i not the covern motive for the proposition. In he stern provinces the provincial governm into have a lot of Grit heeses inspectors, and o her Grit doubles has sing in the production of provincial lists, and if they were adopted for the reder I dections, he result would be the election of a Grit elections, he result would be the election of a Grit elections, he result would as Grit Assemblies. Houset P John Norquay, the model "Conservative" premiere e Santobas, as in conterence assenting to be is resolution, but he either could not so be hook in his terry cat's foot, or he had to go concern for its operation i. his native province.

The intention of many of the other resolutions is also quite as visible as it is in these and must environments the main object that assemble of the wisdom at that auspectures of santobas, as in conterence assenting to be in resolution to the provincial many the model of the country the welf-rule of Gritim was the main object that assemble of the wisdom at that auspectures and must environe the country the welf-rule of Gritim was the main object that assemble

After Mr. Blake was appointed leader of the Crit party at Ottawa, he became very sick, and had to leave the country for the benefit of his health. Mr. Mercier was appointed leader of the Grit party in Quebec a few months since, and now it is announced that he too has to leave his native heath in search of health also. Leading the Grit party appears to be a very permicious calling, no matter in what country the work may be undertaken.

CAMPBELL'S TONIC

This agreeable yet potent preparation is especially adapted for the relief
and cure of that class of disorders
attendant upon a low or reduced state
of the system, and usually accompanied
by Pallor, Weakness and Paiplation
of the Heart. Prompt results will
follow its use in cases of Sudden Exhaustion arising from Loss of Blood,
Acute or Chronic Diseases, and in the
weakness that invariably accompanies
the recovery from Wasting Fevers. Noremely will give more speedy relief in
Dyspepsia or Indigestion, its action on
the stomach being that of a gentle and
harmless tonic, exciting the organs of
digestion to action, and thus affording
immediate and permanent relief. The
caramantite properties of the different
aromatics which the ELixir contains
render it useful in Flatthent Dyspepsia, which is apt to occur in
nersons of a goury character.
For lungwertabled Blood, Loss of
